Some Things are Irreplaceable

Have we ever thought of the many things we do daily that can always be redone; or of the many objects we use that can always be replaced?

We tend to become complacent in our security that there is always the second opportunity to improve or amend the things about us.

But there is one element of our life that can never be re-used—**time.**

How many of us dwell on idle thoughts that, perhaps, we should not. Daydream, pay no attention in class when our grades indicate that we should be more attentive.

We well know that at the moment our primary purpose in life is to apply ourselves to our studies. To do otherwise is to violate the duty of our present state of life.

How many of us, instead of doing something constructive with our time, sit around in the afternoon playing cards for hours?

Idleness that deprives us of doing something constructive with our time will certainly have to be accounted for by a full and accurate measure. Full realization of just how important time is seems to be realized by only too few.

If we could but grasp its true significance, we would undoubtedly place a greater value on the time alloted us by God in his Divine Providence.

with Donald Smith

The faculty and members of the student body wish to express their sincere sympathy to Brother Norman on the recent death of his father.

• • •

Boarders have, by now, become accustomed to the idea of wearing coats and ties to Mass on Sundays and Holy Days of Obligation. I believe everyone will agree that the regulation has improved the over-all appearance in the chapel.

• • •

All students and faculty members took part in the annual Christ the King procession, held on October 28th. The procession was held to honor Christ, the King.

• • •

Rock-A-Chaw Stadium has taken on a new look with the addition of a new room to the press box, new speakers and remodeling of the dressing rooms,

• • •

Everyone enjoyed themselves, under the harvest moon, at a dance given by St. Joseph Academy. The annual Harvest Ball was held on October 31, at the Convent.

• • •

Mr. and Mrs. M. L. Queen, of Waveland, Miss., made a donation for an American Flag for the school library. The donation is greatly appreciated and the flag will add much to the decor of the library.

Doublethinking Is Not Thinking

An important communistic tactic is the one called the "dialectic argument".

George Orwell, an outstanding opponent of communistic agression in the free world labels this argument as "double-thinking." Basically "Doublethinking" is the holding of two contradictory beliefs in one's mind simultaneously, and accepting both.

We are quick to realize that this type of thought is common in Russia and communist China today, but I am sure any loyal American would strongly deny that it is practiced in the United States.

Yet, when we hear or read of someone discussing the "free world", he tends to include in this category the United States, England, other democracies, and the South American, Spanish and Near Eastern dictartorships. This is "double-thinking."

Any grammar school government text will classify ours as a Christian nation, yet we are aware that there are too many Americans who are Christians in name only. Rarely do they practice religion. This too is "doublethinking."

If we pause for a moment, we can no doubt find other situations where we unconsciously incorporate this process of reasoning into our way of life.

These few examples demonstrate that we are attempting to defeat an enemy while at the same time practicing one of the things he teaches.

Con tantas actividades que hay en el mes de Noviembre todos los companeros estan muy alegres.

Estas actividades son el baile de Halloween, el fin de semana del Homecoming, y despues para cerrar el mes con broche de oro las vacaciones de Thanksgiving.

Gracias a nuestro espionaje sabemos que Eduardo Hernandez ha hecho planes para ir a Jackson en Thanksgiving ya que ahi donde vive cierta rubia del convento.

El esta muy desilucionado pures ella esta castigada y asi no la podra llevar al baile del Homecoming.

Joe Merren esta muy alegre puesto que recibio una carta de la United Fruit Co. infomandole que tiene que ir a New Orleans a recibir docientas libras de plantano mas bien conocidas en el colegio por Guineos Voladores—ya que el dice que vuelan porque tienen hydrogeno.

A Waldo Caceres no hay quien lo alegre—el ha estado en esta situacion desde que supo que cierta muchacha del convento le gusta a otro—pero el no se da porvencido y ahora esta tratando de ser el mejor jugador de football para que ella cambie para el otra vez. Waldo no purede ceptar una derrota.

En esta edicion vamos a felicitar a los companeros que sacaron al Cuadro de Honor. Entre ellos tenemos: David Alvarez, Annibal Boucagnani, Alberto Lacombe y Joe Merren.

Tambien tuvimos a varios companeros enfermos entre ellos Johnny Di Dianous El Muchacho Enfermo, Juan Saravanja y el incomparable Joe Merren. Gracias a Dios ya estan bien y estudiando mucho.

Como durante Cuaresma no hay bailes los muchachos y muchachas van a hacer reuniones sociales al campo de patinaju—eso si las muchachas estan vivas para ese tiempo, y que hoy por poco se matan. Si se cae hay que celebrarlas, pures si no se dan por vencidas. *Hay veces que se caen pero no se acobardan y se vuelven a levantar* pero a veces llegan al punto que ya no se pueden levantar mas, "Pobres".

Rolando "Benbas" Mora, Eddy, y yo—Jorge Casares—tuvimos la mision de traducir para unos Mexicanos que vinieron hace poco. Aunque tuvimos unos enrredos todo salio bien.

Como se me olvido mencionar a los del grupo pequeno la vez pasada lo ago ahora ellos son; el invencible Fredy Ponce, Fernando Prado y Roberto De La Garza.

Para las Vacaciones de Thanksgiving se ha podido averiguar poco ya que todavia faltan muchos dias. aldo "Black Knight" Caceres se va para Hattisburg y Eddy como ya mencionamos quiere ir a Jackson eso si lo invitan El resto no tienen planes todavia.

Como Jorge Casares tiene tantas faltas de ortografia el hermano encargado del periodico tuvo que citar a Don J. C. para corregirlas, esperamos que el este bien.

Bro. Ephrem Completes 30th Year At Stanislaus

Brother Ephrem is beginning his 30th year at S.S.C. as prefect of the small study hall. During the many years Brother Ephrem has spent at Stanislaus he has served under the direction of Brothers Peter, William, Alexis, Roland and at present under Brother Hugh.

Brother is responsible for much of the good character which is developed at the school, he has always made it a point to start the younger boarders off on the right foot. At present there are 68 boys in his study hall ranging from the fifth to the seventh grades.

After pronouncing his perpetual vows in 1937 he spent the following years at the Brothers' schools in Natchez and Thibodaux, before coming to S.S.C. Brother was stationed here during the hurricane of 1947, which he relates a being the worst experience he has ever encountered.

NASA Schedules Kiln Engine Tests

Engines for the massive saturn and nova rockets are scheduled to be tested in the Kiln area within the next two to three years.

Designed by the Army, the saturn-nova program is now conducted by the National Aeronautics Space Administration since 1959.

Among the major projects of the program are to orbit a three-man crew about the earth as early as 1963, and to put a team on the moon as early as 1967.

Heading the program for the N.A.S.A. is Doctor Werner Von Braun, former director of the German V2 project, and now chief scientist for the N.A.S.A

Constituting the massive testing project site will be many acres of land in Mississippi and Louisiana. A large portion of this land is intended as a buffer area.

Rocket test engines will be transported by barge from the Louisiana plant to the testing site. Actual launching of the manned space rockets and unmanned solar and lunar probes will take place at Cape Canaveral, Florida.

Incidentally, in astronomical terms the word "nova" means exploding star. Rockets designers are speculating on the possibility of changing the name of the rocket.

Grammar Graders

By Walter Antin

Fourth through the seventh graders are playing organized football in the Yard League. They play tackle football. Pants, jersey, helmet, and shoulder pads are provided.

8A and 8B have been playing touch football games. 8B has also been playing interscholastic tackle football games with other junior high schools.

Football isn't the only sport that is going on this term. 8B has a handball tournament. The Middle Study Hall, which consists of the 8A students and most of the freshmen, also participated in a handball tournament.

In the afternoons the grammar grades have been having singing lessons. They have been practicing the hymns sung at Benediction. They made their first attempt to sing hymns at Benediction on the first Friday of October. They managed very well for the first time.

On October 26th the grammar school attended a special showing of the film "Ben Hur" at the local theater. Special prices were arranged for students attendance.

Variety is the keyword for the movies soon to be viewed at the local theaters.

From the house of Fox **The Hustlers** unfolds the sharp-shooting talents of pool shark Dean Martin and his side kick Jackie Gleason.

Susan Hayward leads the cast of actors in **Ada,** as she overcomes the obstacles of securing the attention of Dean Martin.

On the platter ladder Ernie Doe's "Can't Tell You" is on the top rung. Next in step and close behind is "I Understand" by the Newcliffs. Occupying third place is Bill Black and his combo with their instrumental of "Movin'."

Fastest moving of the novels on the campus is Harper Lee's **To Kill a Mockingbird.** You will have to put your name in, in advance, to secure a copy of this bestseller.

Call It Treason by George Stowe narrates the motives and the mission of three German prisoners of war who act as counterspies for the American army.

Persia in the 15th century is the setting for Elgin Groseclose's **The Carmelite.** Historical fiction comes to life as Father Juan Thaddeus battles for the freedom of Christians of this heathen land.

Colors in the flag include the traditional school colors: namely, red and black, and also white. The words "Saint Stanislaus College" will be written in the shape of an arc, above the shield of the Sacred Heart, on the left, the school tower on the right, and the school emblem in the center.

Help S.S.C. Library Through Donations

Rummage through those stacks of books and magazines and try to turn up some books or copies of **National Georgraphic** magazines that could be placed on the shelves of the S.S.C. library.

Brother Claude, librarian, ask that any books, be they novels or reference books, suitable for the school library, be donated to the school if they are merely collecting dust at home.

We are all aware of the value of a well-equipped library. You can be responsible for many hours of enjoyable or instructive reading if you can in any way contribute to the expansion of the S.S.C. library.

Brother Loyola is presently binding issues of **National Geographic** magazine and would welcome all back issues of this periodical.

Let's make an effort to expand the S.S.C. library through the donation of books or **National Geographic** magazines.

After 11 rugged seasons with the Boston Celtics; Bob Cousy, the 33 year old magician, doesn't show any signs of losing his great skills.

Cousy, now entering his twelfth season in the most strenous of all sports, is now better than in past seasons.

The big reason [illegible] behind his success is his understanding of the ability of his teammates. He has taught his mates what to expect instead of surprising them with his brand of magic. He work with his teammates better than he used to, although he was always the unselfish team man.

In his first season in the National Basketball Assn. he had 341 assists and a 15.6 average in 69 games. Last year he had 591 assists in 76 games and a 18.1 average, second best on his team. He has lead the Celtics to the N.B.A. championship three times in a row and there is no end in sight.

When Cousy begins to slow down with his skills it should be a graceful loss. When it does happen basketball will lose one of its greatest players.
